**WHEREAS**, the City Manager, as Director of Emergency Services of the City of Imperial Beach, does hereby find that continued conditions of extreme peril to safety of persons, property, and environment have arisen within said City, caused by persistent impacts from cross-border pollution in the Tijuana River; and

**WHEREAS**, the persistent impact of cross-border flows of treated and untreated wastewater in the Tijuana River, excessive discharge of sediment into the Tijuana Estuary during storm events, and the continued impact of trash and waste tires in the Tijuana River Valley maintains a condition of extreme peril in the City; and

**WHEREAS**, transboundary flow events in the Tijuana River impacts water quality along the Imperial Beach shoreline and result in significant beach closure days at Border Field State Park, which include 101 days in 2018; 243 days in 2019; 295 days in 2020, 246 days in 2021, 365 days in 2022, 365 days in 2023, 365 days in 2024, and all of 2025; and

**WHEREAS**, transboundary flows of pollution include untreated sewage, trash, sediment, hazardous chemicals, heavy metals, and toxins continue to impact the Tijuana River, Estuary, coastal waters of the Pacific Ocean, and tributary canyons including Stewart's Drain, Canon del Sol, Silva Drain, Smuggler's Gulch, Goat Canyon, and Yogurt Canyon; and

**WHEREAS**, the renewed federal attention from the Environmental Protection Agency and International Boundary and Water Commission led to a careful assessment of project options to manage pollution and ultimately a recommendation to support “Alternative 2” in the USMCA Programmatic Environmental Impact Statement, which represents the preferred Tijuana River Comprehensive Solution that is supported by the City; and

**WHEREAS**, additional funding and commitments are needed to completely implement the preferred Comprehensive Solution for the Tijuana River; and

**WHEREAS**, the City of San Diego has maintained a continuous local state of emergency for the Tijuana River since September 1993; and
